Solids disintegration

Disolution

Homogenization

THE MOST VERSATILE MIXER IN THE MARKET

Different backplate options

QIM+216-R1

Big tilted slots

For disintegration of hard solids.

QIM+216-R2

Big slots

For disintegration of soft solids

QIM+216-R3

Small slots

For disintegration of small solids.

QIM+216-BRG

Big radial bores

For mixing liquids and powders

QIM+216-BRP

Small radial bores

For emulsifying different types of liquids.

DRY BLENDER QDB+ YOUR PROCESSES, EASIER

Q-Pumps' QIM+ has a modular design so it can be converted into a Dry Blender (QDB+), which consists of a QIM+ Inline Mixer coupled with a work table and a cone.

The QDB+ also comes with integrated valves for improved ergonomics.

Sizes: QIM+114, QIM+216, QIM+328

With ball valve for allowing the passing of bigger solids and avoid clogging.
